Lyle Polyak sent a note that may be of interest to the artists of TESA.

"I have recently had dealings with the St. Pete Clearwater Film Commission after being told that I could not photograph in Heritage Village without a permit. It has been rumored for some time that Pinellas County would eventually initiate regulations on "Professional Photography" in County owned parks and lands. I can verify that Heritage Village in Largo now requires photographers to hold a permit in order to engage in their trade on the premises. If the park staff perceive visitors using any camera more advanced than a point a shoot they are able to check for a permit on the spot. They have posted the attached regulations on their website and at the entrances. In order to secure a photography and filming permit, professional photographers and artists need to apply at <http://florida.filmapp.com/filmspc/> To secure a permit as a professional photographer you MUST hold business liability insurance and upload a certificate of insurance to this website." - *Lyle Polyak*

Brandy Stark received **First Place** at this year's Necronomicon Art show for her piece "Descending the Stairs". The work has also found a new home and will be moving across the state.
